PROFESSIONAL SUMMARY

Software Engineer with 1.5+ years of experience in backend development using Java, Spring Boot, and Microservices, with exposure to Artificial Intelligence and Machine Learning concepts. Skilled in building scalable applications, REST APIs, and data-driven solutions, with a strong foundation in Data Structures, System Design, and problem solving.

EXPERIENCE

Thales

Software Engineer 1

January 2025 – Present

Noida, Uttar Pradesh

- Designed and optimized **10+ RESTful APIs** using **Java Spring Boot and Microservices**, improving response time by **30%** through query optimization and caching strategies.
- Enhanced **Cassandra** data models and database queries, improving data retrieval performance by **25%** and reducing response latency.
- Integrated **Hibernate/JPA** for data persistence and utilized **JUnit5** and **Mockito** for automated testing, improving code quality and application maintainability.
- Worked on containerized microservices using **Docker** and **Kubernetes**, improving deployment scalability and system reliability in distributed environments.
- Participated in sprint planning, backlog grooming, estimation, code reviews, and production releases within **Agile/Scrum** teams.
- Resolved **20+ production issues** by performing root cause analysis using logs and monitoring systems, improving system stability and uptime.

iOne IT Solutions

Software Developer Intern

May 2024 – July 2024

Noida, Uttar Pradesh

- Developed enterprise-grade web applications using Oracle APEX for workflow automation and business process management.
- Designed and implemented **10+ interactive dashboards and analytical reports** used by business stakeholders.
- Improved SQL query performance and database operations, reducing report generation time by 20%.
- Collaborated with business users to gather requirements and deliver scalable technical solutions.

EDUCATION

Jaypee Institute of Information Technology, Noida

B.Tech in Computer Science and Engineering

2021–2025

CGPA: 8.5

SKILLS

Languages: Java, Python, C/C++, JavaScript, HTML/CSS

AI/ML: Machine Learning, NLP, RAG, Embeddings, Vector Search, Classification, Regression, Model Evaluation

Libraries / Frameworks: Spring Boot, Hibernate, JPA, React, Node.js, FastAPI, LangChain, Pandas, NumPy, Scikit-learn

Databases: SQL, MongoDB, Cassandra, FAISS

Data Analytics: Power BI, DAX, Dashboarding, Data Transformation

DevOps: Docker, Kubernetes, Jenkins, CI/CD, AWS/Azure

Cloud and Distributed Systems: Microservices, System Design, Scalable Architectures

Developer Tools: Git, GitLab, Jira, Maven, Gradle, Visual Studio, PyCharm, IntelliJ

Testing: JUnit5, Mockito, Postman

Core Concepts: OOPs, Data Structures and Algorithms, Multithreading, Operating Systems, Computer Networks, DBMS

PROJECTS

AI Interview Preparation Assistant | *React, FastAPI, LangChain, FAISS*

- Built a RAG-based interview assistant that analyzes resumes and job descriptions to generate contextual interview questions, skill-gap insights, and role-specific preparation support.
- Implemented document chunking, embedding generation, FAISS-based retrieval, and LLM-powered answer generation to provide source-grounded responses and personalized interview guidance.

Real-Time Chat Application | *MERN Stack, Socket.IO*

- Built a real-time chat app with one-to-one/group messaging using MERN, Socket.IO, JWT auth, and REST APIs.
- Implemented user search and optimized database queries for efficient message storage and smooth communication workflows.

Sales Analytics Dashboard | *Power BI*

- Built a Power BI dashboard for online sales analysis, integrating multiple datasets and designing interactive visualizations.
- Implemented data transformation, DAX calculations, relationships, and slicers to support dynamic reporting.

ACHIEVEMENTS AND RECOGNITION

- Microsoft Azure AI Fundamentals Certified
- Solved **600+ Data Structures and Algorithms** problems across LeetCode and GeeksforGeeks.
- 5-Star** Coder on **HackerRank**.
- Technical Volunteer, **JIIT Student Optica Chapter**
